Stephen Madaffari of Data Centers Delivered to Speak on Modular Data Center Infrastructure at 7x24 Exchange New York Metro Event

Discussion to cover new innovative technologies for meeting the demand for more modular infrastructure

NEW YORK (May 1, 2014) – [Data Centers Delivered](#), a provider of custom modular data centers, today announced that Principal Stephen Madaffari will participate in a discussion on modular data center infrastructure at the 7x24 Exchange Metro New York Chapter Meeting taking place from 4:15 – 5:30 p.m. on Wednesday, May 7, 2014 in New York City at Credit Suisse, 11 Madison Ave.

The meeting will discuss new technologies in data center electrical and mechanical modular solutions and what modular data center infrastructure means in today's industry.

“We're currently seeing an increase in demand for modular infrastructure that doesn't show signs of slowing down any time soon,” said Madaffari. “We're excited to put our heads together with other invested players of the modular construction industry and discuss new technologies that best serve this trend.”

Also scheduled to speak alongside Madaffari are representatives from AST Modular, Colt, Compass, Emerson Network Power, HP, iFortress, Aligned Energy, IO and Modular Power Solutions. For more information about the event, visit <http://7x24metrony.org/events/>.
